Monday.

VOL. VIII

BISBEE, ARIZONA, WEDNESDAY MORNING, FEBRUARY 15, 1905.

NO. 235

STATEHOOD CONFERENCE HOUSE WILL ENDEAVOR TO FORCE IT HEARST INCIDENT CLOSED

BY SULLIVAN IN DRAMATIC STATEMENT
PRESIDENT LEAVES NEW YORK FOR CAPITOL
AFTER UNIVERSITY CLUB ON THE EAST SIDE

Washington, Feb. 14.—Representative Tawney, of Minnesota, Republican whip, introduced a resolution today which discharges the committee on territories from consideration of the statehood bill, disapproves the Senate amendments, and asks for a conference with the Senate. The plan is to have the resolution reported from the committee in the near future, it having been ascertained that sufficient Republicans will vote for the rule to secure its adoption.

Washington, Feb. 14.—The second chapter in the episode between Sullivan, of Massachusetts, and Hearst, of New York, occurred in the House today, when Sullivan again took the floor on a question of privilege, and related the circumstances leading up to indictment and conviction of his father and himself for manslaughter.

His speech was in decided contrast with that of yesterday, when the two men heaped upon each other epithets and charges of a serious nature. Sullivan's statement today was devoid of any further attack on his colleague, being a straight recitation of the occurrence referred to by Hearst yesterday.

Sullivan today admitted the charge, but said he had only been technically guilty, and was permitted to leave the court a free man without serving a day's imprisonment or being subjected to fine. His father had been imprisoned a year, but introduction of new evidence had been pardoned.

Sullivan's statement was listened to with marked attention, and at its conclusion he was warmly applauded, many members leaving their seats and shaking his hand. Hearst was not present during the time he spoke. The remainder of the day was devoted to consideration of the naval appropriation bill.

Senate Approves Tucker Appointment
Washington, Feb. 14.—The Senate today passed the agricultural appropriation bill and began consideration of the bill making appropriations for the District of Columbia. The House brought amendment to the agricultural bill, relative to drawbacks on the duty on wheat, was agreed to after an extended debate in which the tariff

PROMINENT WOODMAN DEAD.
Head Consul Falkenberg Succumbs to Kidney Troubles.

Los Angeles, Cal., Feb. 14.—F. A. Falkenberg, head consul of the Woodmen of the World and president of the National Fraternal Congress, died today of a complication of nervous and kidney troubles.
Mr. Falkenberg was brought to Los Angeles from Denver two weeks ago, in the hope that the lower altitude would benefit him. The remains will be shipped to Denver for interment.
The deceased was born in 1857, and has been prominent in fraternal circles for many years. Together with Jos. C. Root, then head consul of the Modern Woodmen of America, he founded the order of Woodmen of the World in 1890, and has been head consul of the Western Division of the order since. He was elected president of the National Fraternal congress last summer in St. Louis.

SUPREME COURT PASSES
Woman Hanging to Pennsylvania Board of Pardons.

Philadelphia, Pa., Feb. 13.—Unless the board of pardons, which will meet in Harrisburg tomorrow, recommends commutation of the death sentence of Mrs. Kate Edwards and Samuel Gresson, colored, of Berks county, the woman and her accomplice will be hanged for the murder of John Edwards, her husband. The case was before the Supreme Court finally today on two petitions, both of which were refused. Mrs. Edwards, it will be remembered, last week made a confession in which she assumed entire responsibility for the murder.
St. Louis, Feb. 14.—The prize fight scheduled for tonight between Monte Attell, of San Francisco, and Jimmy Walsh, of Boston, before the Commercial Athletic club was declared off by Chief of Police Kiley.

RUSSIA CANCELS ORDERS For War Supplies and Outgoing Troops VIEWED AS PEACE STEP

Washington, Feb. 14.—Leaving the Russian embassy out of the question, it is the unanimous opinion of the officials of the Department of State and members of the diplomatic corps at Washington that the czar and his advisers have had all the war they want and are only waiting for an opportunity to secure advantageous terms of peace. This impression is formed upon intangible evidence, however though all the signs point that way, and where there is so much smoke there must be some fire. There is no doubt that the tone of the Russian newspapers, which usually express the sentiments of the grand dukes and the ministry, is much more softened since the internal outbreaks than it has been at any time before, and it is known from private correspondence since the fall of Port Arthur the peace party at St. Petersburg has been gaining rapidly in strength and influence, while the war party has been in distress. Telegrams to the London papers from correspondents who are usually reliable point out various straws which show the way the wind is blowing. Contracts for military supplies have been canceled by the Russian officials, and all of the orders for the mobilization of the reserves of the army have been revoked since the news of the tender of General Stoessel's surrender has been received. A letter received by a former resident of St. Petersburg, now in Washington, dated January 8, states that the movement of troops and supplies to Manchuria had then been suspended, much to the consternation of the friends and families of the military officials who are responsible for the success of the Russian forces in Manchuria.

MURDER OF WIFE CHARGED TO ANDERSON.

Cananea, Son., Mex., Feb. 14.—A. F. Anderson, who was arrested several days ago on complaint of his sister-in-law, Mrs. Juana Vasquez, who alleged that Anderson had threatened to kill her with an axe, has been released on a nominal bond.
Anderson's wife was mysteriously murdered recently, and another sister of the deceased endeavored to have him rearrested today in connection with that affair. The authorities did not consider the evidence she had to offer as sufficient to justify the action she asked.

WANT THE GOLDEN EGG BACK?

Topeka, Kan., Feb. 1.—Appointment of a committee by the Kansas legislature to investigate rumors of hoodlums has resulted in a wholesale exodus of lobbyists from Topeka and it is doubtful if the inquiry will be pushed any farther.

CHICAGO HOTEL FIRE.

Chicago, Feb. 14.—Fire partly destroyed the Brevoort House, 143-5 Madison street, early today, causing a loss of \$100,000 to the building and hotel furnishings, and forcing 150 guests to make hurried departure. Three firemen were injured. All of the Brevoort guests escaped injury.

TROUBLE FAILS OF MATERIALIZATION St Petersburg is Normal WARSAW SENDS OUT DISQUIETING NEWS

Expected Did Not Happen.
St. Petersburg, Feb. 14.—The anticipated renewal of trouble among the workmen yesterday was not realized. Neither strikers nor students made the slightest attempt to demonstrate, and throughout the day the city presented a normal appearance.
The emperor's creation of a joint commission of masters and workmen, chosen by themselves, to investigate the causes of discontent among the laborers, has made an exceedingly good impression, being considered definite evidence of the government's purpose to compel some of the rapacious masters who have paid starvation wages to do justice to their employees.

Strike in Big Factories.
Warsaw, Feb. 14.—Baron Nolken, chief of police of Warsaw, who has just returned from a conference with Governor General Tchernikoff, of the province of Warsaw, today gave the

WILSON WIRES ASSURANCE TO SPEAKER WEBB.

Phoenix, Feb. 14.—Definite assurance that the identity of Arizona will not be lost among the New Mexicans and that the strip north of the Grand canyon will be preserved to this Territory came from Delegate Wilson last night in the subjoined telegram to Speaker Webb of the legislative assembly.
Washington, D. C., Feb. 13. Hon. W. T. Webb, Phoenix, Arizona.
There is no danger of the Utah larceny of our southwest strip attempted by Kearns for a change of vote, being consummated. We will defeat everything. Therefore, no jolture, no Utah steal, no statehood for anybody. Do not fear for we have it well in hand and will control the situation.
J. F. WILSON.

VICTIM OF CONSUMPTION.

Young Woman Succumbs at Bakersville from Disease.

Miss Mary McWhitter, aged 19 years, died yesterday afternoon at Bakersville. She was a victim of tuberculosis. The time of the funeral has not yet been arranged, but it will probably occur tomorrow.

The young woman came here about two months ago in company with her brother in the hope that the change of climate would result in benefit to her. The disease had advanced too far, however, to be checked.

Mrs. A. A. Lameoureux comes to the city today from Benson to join her husband, night operator at the Postal.

Associated Press the following details regarding the state of affairs of this district:
"The strike continues in all of the big factories. Tomorrow the manufacturers are coming to see me to discuss the situation, and the following day I purpose seeing some of the representatives of the strikers."
"Unless the strikers return to work the police will expel all those living outside of the Warsaw district. If they will not work they must go home. The men have no money, and it seems impossible that the strike can continue much longer. Our task is one of great difficulty. We are not fighting an economic, but a political movement, having its origin in St. Petersburg."
"The worst troubles, however, are probably over. Small disturbances may break out here and there, but not on such a scale as the earlier riots here."

UNCLE SAM GOES TO LAW

PAWNBROKER PULLS EMBRYOTIC COMPETITOR INTO COURT TO DISPOSSESS.

Wants Him Out of Room Sublet in Angius Block—Defendant is Ruled Against by Judge Murphy—Gave Notice of Appeal.

Rosenstein vs. Kreeley was the title of a strenuous civil action in the court of Judge Murphy yesterday afternoon. Rosenstein won, whereupon Kreeley gave notice of appeal.
Rosenstein is better known about the city as "Uncle Sam." Under that title he operates a place on Main street where it is possible to exchange non-eatables in a pinch for the where-withal for a meal ticket. Kreeley cobbles shoes and cleans clothes. Some time ago he rented a room in the Angius block from Rosenstein, who had possibly cornered same to prevent nearby competition. Anyhow, in the lease given Kreeley it was stipulated that he must not engage in second-hand trading.
Kreeley in running his clothes cleaning business gathered in several suits that were not called for. These he offered for sale. Rosenstein took notice of the fact the first of the month by ordering Kreeley to vacate, following the order with notice of rental advance to \$50. Wherefore yesterday's court proceedings.

ANOTHER CHADWICK AT DEATH'S DOOR.

Cleveland, O., Feb. 14.—Irris Reynolds, who held a package said to contain \$500,000 in securities belong to Mrs. Chadwick, is critically ill. Reynolds has been confined to his bed for several days with a severe attack of grip and malaria.

VARNEY MONEY POSTED

\$50 WORTH OF IT AT EVEN FIGURES AT THE REVIEW OFFICE.

Betting People for Most Part Cold-Footed on Home Man—Interest in Approaching Contest Growing Decidedly Warm—Large Ticket Sales.

The advance outlook for the championship of America wrestling contest attendance at Naco on Wednesday next is that it will be the largest that has ever gathered in this section to witness a sporting event. This expectation is warranted by the advance sales of tickets made to date. The pastebards have been going out rapidly. Interest has likewise been extending rapidly, and during the next several days is bound to take on still greater warmth.
As to the chances of Varney with Carkeek, the present champion of America, the local people who put money on such events appear to have accumulated a bunch of feet several degrees below the cold wave temperature that has lately been prancing over the country. Because it is Carkeek and Varney is only Varney of Bisbee, there is a foregone conclusion on deck that Varney is due to get it where the bottle takes the cork.
This feeling, however, is not it exclusively. There are some who have confidence in Varney. One of these last night posted \$50 at the Review office which is ready for anybody with Carkeek money to play even.
Varney has never been thrown but once, and he has been up against many strong men. It is not at all out of reason that he should down Carkeek at Naco and wrest from him the championship. Varney is in fine physical condition, and is training to perfect form. Carkeek is due here this week to put in the last several days before the meeting finishing his training.

MINING BILL IS UP PROPOSED TAXATION IN LEGISLATURE CHANGES LIKELY

GOVERNOR BRODIE STEPS DOWN AND OUT
PREPARES TO LEAVE FOR EAST FRIDAY
SEVERAL NEW LAWS MADE YESTERDAY

Phoenix, Feb. 14.—The feature in the capitol today has been the bidding of farewell to Governor Brodie, who is taking his final leave of official life in this city today and tomorrow, in preparation for his start to Washington on Friday to assume his new duties.
His resignation of the office of governor of Arizona becomes effective tonight. Tomorrow he will telegraph his acceptance to the president of the new office to which he has been appointed.
Until the Senate confirms the appointment of Judge Kibbey and the new governor takes the oath of office, Territorial Auditor Nichols will be acting governor.

Phoenix, Feb. 14.—The Wilson bill as presented to the Legislature today provides for the taxation of all mines, smelters, millsites and the gross outputs of mines and smelters in the same manner as the tax is now levied upon real estate.

In presenting his bill Wilson stated that the gross output of the mines of Arizona during last year reached a grand total in cash value of \$36,000,000, on which income no tax was paid. At one-half per cent, he declared, this gross amount should yield to the territorial treasury \$18,000 annually. In further comment upon the bill Neville stated that the Copper Queen smelter output at Douglas alone has a cash value of \$50,000 per day.

What action will be taken upon the Anderson bill by the legislature can as yet only be conjectured. There is feeling among many, however, that it is crude at best, and that there will have to be many changes made before it will be at all applicable to the mining industry in the territory without large resultant harm, which in some cases would extend to absolute shutting down. This statement was made tonight by a member of the legislature who is opposed to the bill as it now stands.

The Anderson bill, providing for a salary of \$4,000 for sheriffs' offices of the first-class, \$3,500 for the second, and \$3,000 for the third was brought in today, as was also the Pomeroy bill providing for the office of public administrator in counties having \$6,000,000 taxable property.

The House passed bills allowing for the compensation of deputy assessors, allowing their appointment by county assessors, a bill making cruelty to animals a misdemeanor, and one prohibiting the sale of tobacco to minors under 16. Also the Roemer bill providing for the employment of county and territorial prisoners on the public roads, and the Looney bill revising the statutes governing boards of equalization.

The legislature will go to Tempe in the morning to visit the Normal school, and will probably spend the most of the day there.

MAY WORK SANTA ROSA.

Col Greene Will Go and Look at the Property, so Says Report.
When W. C. Greene arrives in Douglas report says he will be met by Jim Kirk, of Cananea, who will go with the party out to Santa Rosa to examine the mine with the intention of working it on a big scale if the property proves to be what it is reported to be. Charles McHenry will accompany the party.

Col. Greene has been looking this section of the mineral country over for some time and has had on several occasions well informed mining men in and around here looking at a number of the properties that are for sale. At one time he had a man at San Juan Wm. Lutley's mine, near the Santa Rosa; but no sale was made. He also had a few men opening up a small copper prospect near W. G. McDonald's property.

There is no doubt about the Santa Rosa being a mine. There is a good ore showing but from all reports it will cost a small fortune to get the mine properly developed, ready for big production. Greene and Lawson have the money, and if they take the mine and operate it on the Greene scale the Santa Rosa will surely become one of the greatest producers in Sonora. The Santa Rosa is not far from the proposed Greene road and should Greene take the mine the ore would be reduced in Cananea.

DRIPPING SPRINGS KILLING.

John Hand Shot By "Doc" Stidham at Hand's Saloon.

Another tragedy was enacted at the Dripping Springs saloon on Tuesday night, says the Globe Silver Belt, the victim being John Hand, the proprietor, who a few weeks ago shot and killed a Mexican, and was under bond to answer for the killing to the grand jury.

Hand was shot and killed by "Doc" J. L. Stidham who rode into Globe Wednesday afternoon with John Meadows and surrendered to the authorities, declaring that he had to kill Hand, presumably in self-defense. Stidham was admitted to bail, his bond being fixed at \$500, which he was unable to give and was put in jail pending an investigation of the affair.

Both Stidham and Meadows are reticent in regard to the killing and what little information has been obtained is conflicting.

Justice of the Peace and Acting Coroner Hinson Thomas left this morning for Dripping Springs to hold an inquest over the body of Hand and Deputy W. R. Anderson accompanied him to serve subpoenas on three witnesses said to have witnessed the shooting of Hand.

No date has been set for the preliminary examination of Stidham. He is known to many persons here, having been for a time in the employ of the Old Dominion Commercial company.

HIS FORTUNE GONE Sad Plight of Old Timer of Prominence WANT AND DEATH AT HAND

Denver, Colo., Feb. 14.—Propped up in bed in a cheerless room at 1962 Broadway, was Capt. Andrew Holland Anderson, 72 years of age, suffering from the lack of medical attention, from Saturday morning until late yesterday afternoon, when he was taken to the hospital.

Captain Andrew H. Anderson has led an eventful life, full of hardship and danger. He has been a soldier and planman, traveling man and detective, and during his career has held many prominent positions.

In 1854 Anderson was commissioned by President Pierce as captain of a regiment to fight the Comanches Indians on the Northern frontier of Texas, and at the opening of the civil war in 1860 he resigned his commission with the rangers with a collection of fourteen scalps taken from the red men in many a bloody encounter.

In later years he made the acquaintance of Mark H. Hopkins of San Francisco, and through his advice as to investment became the possessor of a good income. Some years after this, however, he lost his fortune through the decline of real estate and entered the employ of the Union Pacific railroad as chief clerk of its secret service, but after some years his health broke down and he was forced to resign. Finally he was sent for by Lucky Baldwin and remained in the latter's employ for a long time as advertising manager of his hotels and resorts.

He came to Denver for his health and as there was nothing in the way of employment for him at the time, he sold papers and followed this vocation up to the day he was injured.
